To Whom It May Concern,

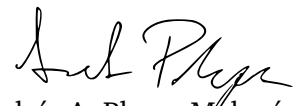

I, Andrés A. Plazas Malagón, as an organizer of the **Rubin 2036 Workshop**, hereby certify that Muhammad Awais participated remotely in the **Rubin 2036 Workshop**, held on August 3–6, 2026, at SLAC National Accelerator Laboratory and the Kavli Institute for Particle Astrophysics and Cosmology (KIPAC) at Stanford University.

The workshop brought together members of the astronomical community to discuss the future of the Vera C. Rubin Observatory beyond the completion of the Legacy Survey of Space and Time (LSST), including potential scientific opportunities, observing strategies, instrumentation, and future uses of the Observatory.

Muhammad Awais actively participated in the workshop online and contributed to the scientific program by presenting a lightning talk.

This letter is provided as certification of their participation and contribution to the Rubin 2036 Workshop.

Sincerely,

Andrés A. Plazas Malagón, PhD
